

GRADUATE STUDENT MASTER’S ADVISORY COMMITTEE

The membership of your committee should be discussed with your advisor before contacting the members and finalizing your committee.

Master’s degree committees – 3 members: The majority of the faculty members on the committee must be from your department or program of study (including the advisor) and all committee members must have Graduate Faculty Status. Check faculty eligibility to serve as a member of a master’s committee by referencing the [Graduate Faculty Database](#) (requires KU log-in). Please have your committee finalized by the end of your second semester of study.
